

Example of Draft Concept Plan for Centerbrook: Return of a Village Center

Community Workshop #2

Transportation is critical to all aspects of life in the Town of Essex. A town-wide transportation study has been conducted to evaluate mobility around Ivoryton, Centerbrook, and Essex, whether getting around by car, on foot, by transit or bicycle. The study team has identified possible improvements that could be made at intersections and roadways, directional signage, sidewalk connections, bicycle routes and transit service links. Draft concept plans have been drawn up and this workshop will provide the public with an opportunity to view these draft plans and provide comments.

Please come:

Town Hall Auditorium 29 West Avenue Essex, CT 06426	Tuesday, February 15, 2011 Informal Open House - 7:00 pm to 9:00 pm Presentation - 7:30 pm
Snow date:	Wednesday, February 16, 2011 (In case of inclement weather)

The objective of this public workshop will be to provide the community with an opportunity to view draft plans and provide comments for transportation improvements proposed for Ivoryton, Centerbrook and Essex.

Your views are important!
